

Bulletin #5
2019 100 Acre Wood Rally
March 14, 2019

To: All Competitors

Subject: Condition of roads

The rally committee is aware of a few problem areas on some of the roads used for either stages or transits.

On Thursday afternoon Stage 5 / 10 Westover Pandora was inaccessible from either the start control (page 23, inst 34, mileage 23.95) or finish control (page 27, inst 14, mileage 5.27). The condition of the transit will be rechecked on Friday morning. If the water has receded enough for the safe passage of rally traffic the intention is to run the stage as planned.

The water crossing on Stage 13 Loop Southern (page 25, inst 16, mileage 8.01) was in poor condition and difficult for some recce vehicles to traverse. We are attempting to make improvements to the road. If road conditions improve the intention is to run the stage as planned.

If any stage is canceled a future bulletin will be posted to the notice board and revised route instructions given.

Thank you,
John Huebbe
Clerk of the course
